EDUCATION

SILICON UNIVERSITY

BACHELORS: COMPUTER SCIENCE AND ENGINEERING

Nov 2022 - June 2026

Bhubaneswar, Odisha: Cgpa: 8.84

NEWTON HIGHER SECONDARY SCHOOL OF SCIENCE

2020 - 2021

CLASS XII

Sambalpur, Odisha : Percentage: 96.33%

SKILLS

PROGRAMMING LANGUAGES: Java, Python, SQL, JavaScript

WEB TECHNOLOGIES: HTML, CSS, Bootstrap5, React, Node JS

DEVOPS: AWS, Microsoft Azure, Git, GitHub

EXPERIENCE

SYLLOGISTEK SYSTEMS | PYTHON

Aug 2023

build up an information system for electronic medical records which is functional for the medical staff to check patients data from previous records which leverages Python's robust features, including functions, modules, lists, strings, dictionaries, loops, conditional statements, and file handling.

INGENIOUS-TECH WORLD | MICROSOFT AZURE

Aug 2024

This internship provided comprehensive insights into cloud infrastructure management, covering Azure fundamentals, advanced tools, and best practices. Gained hands-on experience with virtual machines, virtual networks, storage solutions, and networking practices. Developed essential skills in cloud security, including Network Security Groups and Azure Active Directory. Real-world scenarios and hands-on projects built confidence and proficiency in using Azure.

INGENIOUS-TECH WORLD | DEVOPS MASTERS

June 2025

Completed an intensive DevOps Masters Course covering core Linux and cloud fundamentals, AWS services (EC2, IAM, VPC, S3), Docker, Kubernetes, and CI/CD pipelines. Gained hands-on experience with infrastructure automation using Terraform, secure deployments with DevSecOps tools, GitOps using ArgoCD, and monitoring with Grafana and Prometheus. Built and deployed scalable applications using CodePipeline, CodeBuild, and CodeDeploy.

PROJECTS

YOUR PLACES | [LINK](#)

September 2024

- A social platform for travel enthusiasts to share tales of their journeys and explorations.
- Techstack: Frontend - HTML, CSS, ReactJS; Backend - Node.js, Express.js; File uploading-Multer; Database - MongoDB; Authentication - JWT, State management - Context API; Security - Bcrypt, CORS
- Functionalities - user signup, login (auth using JWT token), token management using Context API, responsive design

FRAGILE TO STABLE | [LINK](#)

January 2025

- A country safety analyzer providing travel and settlement insights, along with stability trend forecasts.
- Tech Stack: Frontend - HTML, CSS, ReactJS; Backend - Python, Flask; Datasets - FSI Index, Country Coordinates; APIs - Gemini;
- Functionalities: Country safety analysis, stability trend forecasting, heatmap visualization, map visualization, important feature identification, AI-based recommendations.

- Quizify – A full-stack quiz system with role-based access and Google authentication
- Tech Stack: Frontend – HTML, CSS, ReactJS, Bootstrap; Backend – Node.js, Express.js, MongoDB; Authentication – JWT, Passport.js (Google OAuth); Deployment – Netlify (Frontend), Render (Backend)
- Functionalities: User authentication with Google Sign-In, role selection (quizzier/quizmaster), quiz creation and management, quiz attempts with real-time scoring, individual and global leaderboards, quiz attempt analytics for quizmasters, dynamic modals, responsive UI design.

CERTIFIED COURSES

- Python by Syllogistek Systems (August 2023)
- Azure Masters by Ingenious Tech (August 2024)
- MERN Fullstack development by UDEMY (September 2024)
- Understanding Incubation and Entrepreneurship by NPTEL (December 2024)
- The Joy of Computing with Python by NPTEL (May 2025)

CURRICULARS & EXTRA-CURRICULAR

- Academic Excellence Award, 2019
- School Topper with 96.33% - 2021
- Deputy Director, EB Affairs, SITMUN 2024
- Student Mentor 2023-24
Lead ,EB Affairs, SUMUN 2025
